Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner searched through the claimed invention but could not find good art for limitations automatically determining/discovering user group wherein the user group has relationship with at least resources, and outputing the user group after automatically determining the user group. Examiner consulted with Primary Kenny Lin; after reviewing the claims, Kenny agreed that the claims are allowable. Examiner called and discussed allowable subject matter with Mr. Pedersen. Examiner said that all independent claims would be allowed if they include limitations nodes comprise user nodes and resource nodes and outputing user groups after automatically determined user groups. Mr. Pedersen agreed to authorize examiner's amendment.
